**Concept Note -**

Gender inclusion is a concept that transcends mere equality. It's the notion that all services, opportunities, and establishments are open to all people and that male, female and LGBTQAI stereotypes do not define societal roles and expectations. The development of marginalized community is a global concern in this new millennium. In this respect, gender mainstreaming has been approached as a key requirement in the social inclusion process and gender equality policies of many developed and developing countries.

This National Seminar will deal with removing the obstacles to marginalized community's public participation in all spheres of life – for example, economic, social, cultural and political – by motivating them full and equal participation and decision-making powers.

This seminar will focus on identifying processes of social exclusion and inclusion with regard to the personal, socio-cultural, political and economic aspects of the lives of indigenous people, particularly the women and LGBTQAI community. These marginalized communities' personal and socio-cultural life is useful for analyzing their political and economic deprivation.

The National Seminar on "Understanding Transgender (LGBTQAI) for Inclusive Society" aims to develop innovations to increase **voice and influence of LGBTQAI and Women**, foster **gender equality and social inclusion**, and enable **women, men and LGBTQAI community across scales to empower themselves**. The seminar adopts an **intersectionality** lens to analyze how gender intersects with other factors of social differentiation, such as socioeconomic status or ethnicity. By eliminating violence against women and LGBTQAI community, empowering them through increased economic opportunities, improving their participation in leadership and decision making and strengthening their groups and reduce inequalities and
