**Activities Report**

1. **Name of Department:** B.Voc Animation and Film-making
2. **Name of Organized Activity:** Guest Lecture on "3D Architectural Visualization" by Mr. Rohit V Katar
3. **Date:** 30/03/2026 **Duration:** 1 Day
4. **Aims and Objectives:** The objective of this guest lecture was to familiarize students with the process of designing and Creating architectural concepts, 2D CAD plans, and design ideas into highly realistic, engaging 3D renderings, animations and career opportunities in the field of animation.
5. **No. of beneficiaries:** (Participants) **30** Students
6. **Expenditure & funding agency/collaborators:** Nil **Total Expenditure - Nil**
7. **Brief description:** A guest lecture on *3D Architectural Visualization* was conducted to introduce students to the process of creating realistic architectural models and environments using modern 3D software. The session covered essential concepts such as modeling, texturing, lighting, rendering, and camera composition. The speaker also shared industry insights, real-world project workflows, and demonstrated how visualization is used in architecture, interior design, and real estate marketing.
8. **Outcomes:**
  - Understand the fundamentals of 3D architectural visualization
  - Identify the workflow from concept to final render
  - Gain knowledge of industry-standard software and tools
  - Learn basic principles of lighting, materials, and rendering
  - Understand camera angles and composition for realistic output
  - Explore career opportunities in architectural visualization and related fields
  - Get insights into real-world projects and professional practices
  - Develop an interest in creating visually appealing architectural scenes

**Report**

**Guest Lecture on:** - “3D Architectural Visualization” by Mr. Rohit V Katkar

**Introduction:** Asst. Professor Nikhil B Shinge Sir

**1. Guidance:**

- Focus on **strong fundamentals** of modeling, lighting, and texturing
- Practice regularly to improve **speed and accuracy in 3D work**
- Maintain proper **scale and proportions** in architectural models
- Give importance to **lighting and realism** for better visual output
- Learn and explore **industry-standard software** like 3ds Max, Blender, SketchUp
- Pay attention to **composition and camera angles** for presentation
- Build a **strong portfolio** with quality renders and projects
- Stay updated with **latest trends and rendering techniques**
- Work on **real-life references** to enhance realism
- Develop **creative thinking along with technical skills**
- Manage time efficiently during project work
  
- Take feedback seriously and continuously **improve your work**

**2. Gratitude:** By Asst. Professor Mahesh B Mali Sir.
