Perspective Plan For academic year 2018-2023

Foundation Building and Curriculum Development	**Curriculum Enhancement:**
	Regularly update and align the curriculum with industry standards, ensuring it reflects the latest trends and technologies in animation and filmmaking.
	Integrate courses on emerging technologies such as Virtual Reality (VR), Augmented Reality (AR), and interactive storytelling to prepare students for the evolving landscape of the industry. Incorporate feedback from industry experts through advisory boards to ensure the curriculum meets the current and future needs of the animation and filmmaking sectors.
	Quality Teaching Through Innovative Methodologies:
	Prioritize faculty development programs, workshops, and training sessions to equip educators with the latest teaching methodologies and digital tools. Implement a blended approach to teaching that combines traditional methods with digital tools, creating an engaging and interactive learning environment.
	Encourage faculty to explore innovative ways of integrating technology, interactive projects, and real-world case studies into their teaching to enhance the overall learning experience.
	Industry Collaboration for Real-World Exposure:
	Establish strategic partnerships with leading local and regional animation and filmmaking industries to provide students with real-world exposure. Facilitate internships, allowing students to apply theoretical knowledge to practical scenarios and gain hands-on experience. Arrange guest lectures and workshops by industry professionals to share insights, industry trends, and practical experiences, enriching the academic curriculum with real-world perspectives. Encourage collaboration on live projects with industry partners, enabling students to work on projects that directly contribute to the needs of the animation and filmmaking sectors. By focusing on curriculum enhancement, innovative teaching methodologies, and strong industry collaborations, the Animation and Filmmaking department can lay a solid foundation for students, ensuring they are well-equipped with the skills and knowledge needed for success in dynamic and competitive fields.
Student Engagement and Enrichment	**Interactive Workshops and Masterclasses:**
	Organize interactive workshops and masterclasses with industry professionals to provide students with practical insights into animation and filmmaking techniques.

Invite renowned animators, filmmakers, and experts for sessions that cover the latest trends, technologies, and creative processes in the field.

Film Screenings and Critique Sessions:
Conduct regular film screenings, showcasing a variety of animation and filmmaking genres to expose students to diverse styles and storytelling approaches.
Facilitate critique sessions where students can analyze and discuss films, fostering a deeper understanding of cinematic techniques and narrative structures.

Industry Networking Events:
Host networking events that connect students with professionals from the animation and filmmaking industries, providing opportunities for mentorship, collaboration, and potential internships.
Organize career fairs and industry panels to offer students insights into career paths, industry expectations, and potential job opportunities.

Collaborative Projects:
Facilitate interdisciplinary collaboration by encouraging students to work on projects with peers from related fields, such as sound design, graphic design, or storytelling.
Engage students in collaborative film and animation projects that address real-world challenges or explore innovative concepts.

Internship and Industry Exposure:
Facilitate internship opportunities with animation studios, film production houses, and VFX companies, allowing students to gain practical experience and industry exposure.
Organize industry visits, where students can observe the filmmaking process firsthand and interact with professionals in a real-world setting.

Competitions and Awards:
Encourage students to participate in animation and filmmaking competitions, both national and international, providing a platform to showcase their talent and receive recognition.
Celebrate student achievements through awards and recognition ceremonies, fostering a culture of excellence and motivation.
By actively promoting these student engagement and enrichment initiatives, the Animation and Filmmaking department can provide students with a holistic and inspiring educational experience, preparing them for successful careers in the dynamic fields of animation and filmmaking.

| Quality Improvement and Exam Assessment | **Continuous Curriculum Review:**
Implement regular reviews of the curriculum to ensure alignment with industry standards and emerging trends in animation and filmmaking.
Incorporate feedback from students, faculty, and industry professionals to make timely updates and enhancements to the curriculum.

Quality Teaching and Learning Experience:
Emphasize faculty development programs to enhance teaching methodologies and incorporate digital tools for an enriched learning experience.
Introduce innovative teaching techniques, including project-based learning, case studies, and interactive sessions, fostering creativity and critical thinking among students.

Formative and Summative Assessments:
Conduct regular formative assessments to gauge student understanding and progress throughout the academic term.
Implement robust summative assessments, including practical projects and examinations, to evaluate students' proficiency in animation and filmmaking skills.

Industry-Relevant Skill Assessments:
Integrate industry-relevant skill assessments into the curriculum to measure students' practical proficiency in animation software, filmmaking techniques, and visual effects.
Collaborate with industry partners to align assessments with the skills and competencies sought by employers in the animation and filmmaking sectors.

Mock Interviews and Portfolio Reviews:
Offer mock interview sessions to prepare students for job placements, focusing on interview etiquette, portfolio presentation, and industry-specific questions.
Conduct portfolio reviews to assess the quality and relevance of students' work, providing constructive feedback for further improvement.

Accreditation Preparedness:
Align the department's processes with accreditation requirements, ensuring that the curriculum, teaching methodologies, and assessments meet the standards set by relevant accrediting bodies.
Regularly conduct internal audits to identify and address areas for improvement in preparation for accreditation evaluations.

Through these quality improvement and exam assessment strategies, the Animation and Filmmaking department aims to maintain a high standard of education, continuously adapt to |

	industry dynamics, and ensure that graduates are well-prepared for successful careers in the animation and filmmaking fields.
Accreditation Preparation	**Curriculum Alignment with Industry Standards:** Regularly review and update the curriculum to align with the latest industry standards and technological advancements in animation and filmmaking. Ensure that the curriculum reflects a balance between theoretical knowledge and practical skills required by professionals in the field. **Documentation and Evidence Gathering:** Document all academic and non-academic activities meticulously, providing comprehensive evidence for accreditation purposes. Create a centralized repository for documentation, including syllabi, assessment methods, faculty qualifications, and student achievements, facilitating a streamlined accreditation process. **Faculty Qualification and Development:** Ensure that faculty members meet the accreditation criteria in terms of qualifications and expertise in animation and filmmaking. Provide ongoing professional development opportunities for faculty to stay updated on industry trends, teaching methodologies, and technological advancements. **Infrastructure and Resource Evaluation:** Conduct a thorough evaluation of infrastructure, ensuring that it meets or exceeds accreditation standards. Verify that labs, studios, equipment, and software are up-to-date and aligned with the requirements outlined by accrediting bodies. **Student Support Services:** Enhance student support services, including counseling, mentoring, and academic advisement, to ensure the well-being and success of students. Document initiatives that demonstrate a commitment to student development, engagement, and support. **Industry Collaboration and Advisory Boards:** Highlight collaborations with animation and filmmaking industry partners, emphasizing the department's efforts to stay connected with real-world industry practices. Establish and showcase advisory boards comprising industry professionals who contribute to curriculum development and provide insights for accreditation evaluations. **Quality Assurance Measures:** Implement quality assurance measures such as regular internal audits and reviews to proactively identify and address areas for improvement.

	Demonstrate a commitment to continuous improvement through documented evidence of responsiveness to feedback and assessment results. **Student Outcomes and Achievements:** Showcase student outcomes and achievements, including successful placements, awards, and participation in industry events and competitions. Document alumni success stories as evidence of the department's positive impact on students' careers. By focusing on these accreditation preparation strategies, the Animation and Filmmaking department aims to not only meet but exceed accreditation standards, affirming its commitment to providing high-quality education and preparing students for successful careers in the dynamic and competitive fields of animation and filmmaking.
Community Engagement and Outreach	**Film Screenings and Community Events:** Organize regular film screenings featuring student projects and works of renowned filmmakers, creating opportunities for the community to appreciate and engage with the art of animation and filmmaking. Host community events, such as film festivals or outdoor screenings, to bring people together and foster a sense of community around the shared enjoyment of cinematic arts. **Collaboration with Local Schools and Colleges:** Establish partnerships with local schools and colleges to introduce animation and filmmaking through workshops and interactive sessions. Offer educational programs that allow students from neighboring institutions to explore the creative and technical aspects of animation and filmmaking. **Community Workshops and Skill-building Sessions:** Conduct workshops and skill-building sessions in collaboration with community centers or local organizations. Provide hands-on experiences in animation and filmmaking, allowing community members to explore their creativity and gain insights into the filmmaking process. **Creation of Public Service Announcements (PSAs):** Engage students in creating Public Service Announcements (PSAs) that address local issues, promoting awareness and positive change within the community. Utilize animation and filmmaking as powerful mediums to communicate important messages and evoke emotions.

Interactive Exhibitions and Open Studios:
  Host interactive exhibitions showcasing the behind-the-scenes process of animation and filmmaking.
  Open studio days where community members can visit the animation and filmmaking studios, providing them with a firsthand look at the creative process and technology involved.

Community Storytelling Projects:
  Initiate community storytelling projects that involve residents sharing their stories or experiences.
  Transform these stories into short films or animations, creating a platform for community members to see their narratives come to life through the art of filmmaking.

Participation in Local Festivals and Events:
  Participate in local festivals and community events, showcasing student films and animations.
  Collaborate with local cultural events to integrate animation and filmmaking elements, contributing to the cultural enrichment of the community.

Community Partnerships for Social Impact:
  Forge partnerships with local NGOs or community organizations to create films or animations that address social issues or promote community well-being.
  Use the power of storytelling to inspire positive change and contribute to the social fabric of the community.

By actively engaging with the community through screenings, workshops, collaborations, and impactful projects, the Animation and Filmmaking department can contribute to the cultural vibrancy and social development of the local community while fostering a deeper appreciation for the art and impact of animation and filmmaking.
