     - **Programming Language:** Java
     - **Database:** MySQL
     - **IDE:** Eclipse
     - **Web Technologies:** HTML, CSS, JavaScript
   Key Responsibilities:
     - Developed a car rental portal using Java and MySQL.
     - Designed the database and implemented user authentication.
     - Created an admin panel for managing renal car postings.
     - Performed testing and deployed the application on Apache Tomcat.

2. **Project Name**: – Green Harvest Website.

   Domain: E-commerce (Static Website)
   Duration: Two Months
   Description: Developed a user-friendly static website showcasing the availability of fresh fruits and vegetables. Focused on creating a visually appealing interface with smooth navigation and dynamic web styling.
   Tools Used:
     - **Programming Languages**: HTML, CSS, JavaScript
     - **IDE**: Visual Studio Code

Education Background

- Master In Computer Application (MCA): 8.11 CGPA
  Shivaji University Kolhapur (2024)

Personal Details

- **DOB:** 15/08/1999
- **Hobbies:** Exploring New places, Up skilling self
- **Permanent Address:**
  Flat 179, A Ward,Surve Nagar, Sane Guruji Vasahat Kolhapur, Maharashtra

Key Responsibilities:

- Designed and structured web pages using HTML for a seamless user experience.
- Styled the website with CSS to ensure a modern and attractive design.
- Implemented dynamic features such as interactive buttons and animations using JavaScript.
- Developed the website as a static project without integrating a web server.

Profession experience

Working as Coding Trainee | last 8 months

Java Intern

Code Crafter Services | 4 Months

Role Summary:

Gained hands-on experience in software development by contributing to the design and implementation of Java-based applications under the guidance of seasoned professionals .Enhanced understanding of best practices in coding, debugging, and project management while collaborating on the development of a Rental Car application .

Highlights

- Successfully completed the internship by delivering a functional Car Rental application.
- Developed practical problem-solving and teamwork skills, laying the foundation for a career in software development.
