Percentage: 84.80%

WORK EXPERIENCE

INTERN | FUEL, PUNE | JAN – MAR, 2023

During my final year undergraduate studies, I undertook an internship that introduced me to Machine Learning, Deep Learning, and key algorithms such as Linear Regression, K-Nearest Neighbours (KNN), Logistic Regression, and K-Mean clustering. In addition to technical proficiency, the experience also fostered an understanding of workplace culture, ethics and the development of essential soft skills, enriching my overall skill set and preparing me for a successful career.

INTERN | WOLFOX PVT LTD SERVICES, KOLHAPUR | MAY – JULY, 2024

- Working on the SC Fitness Club live project focusing on gym supplement shakes business.
 - involved in managing various master entities.
 - Developing front-end features using HTML|CSS and back-end services with Python.
 - Developed and implemented an Employee Management Module for SC Fitness Club project, focusing on efficient employee data handling and system integration.
-
