4. No. of participants per team: 2 to 4 students.

Entry fee: Rs. 50 per person

• **Topics for Poster Presentation:**

1. Cloud Computing and Distributed Systems
2. Artificial Neural Network (ANN)
3. Blockchain
4. Applications of Artificial Intelligence (AI)
5. Applications of Internet of Things (IoT)
6. Internet of Things (IoT)- Security challenges
7. Big Data
8. Real life vs Reel life
9. Cyber security carrier opportunities
10. Machine learning

Round -1 CODE FIRE

1. Accept string from user and check string is palindrome or not
2. Create a function calculator to perform mathematical operations on two numbers.
3. Write a program to count and display total no. vowels, consonants and integers from string
4. Write a program to print addition of 2 matrix of same size
5. Write a program to delete element from array at a given index. Elements and Index should be given by user.
6. Program to print sum of odd and even digits from number. E.g if 2345 is given it should print 2+4 and 3+5
7. Find power of number without using power function.
8. Write a program to accept 10 numbers from user and print sum of even numbers and product of odd numbers.
9. Write a program to print prime numbers and total prime numbers from given interval.(take interval from user)
10. Write a program to perform bubble sort on an array. (take array size and array elements from user.)
11. Write a program to find Armstrong numbers and total Armstrong numbers from given range.
12. Write a program to find strong numbers and total strong numbers from given range (Strong number is a special number whose sum of the factorial of digits is equal to the original number. For Example: 145 is strong number Since, $1! + 4! + 5! = 145$).
13. Write a program to display cube of number upto given integer.
