To,

The Principal.

Subject: Permission for IT expert guest session.

I am writing this email for the students of the BCA/BCS/MCA/MCS to seek your permission for conducting a Guest Lecture in yours college for **"Advance Technologies used in IT Companies"**. Many advanced technologies are used in the company now a days and students are not aware of this technology. In this seminar we will guide students for various tracks present in IT industry, like fields where more job openings are available, how to crack interview, which basic things are ask in interview etc. Also we will provide guidance for those students, who are not interested in programming. We will provide various other technical/support/management career opportunities present in IT industry other than programming.

Since 2017 we are working in training and placement and we have successfully placed more than 4000 students in various IT companies.

We also provide support for students in training, Internship and placement. We are tied-up with more than 250 IT companies including small scale, middle scale and MNCs. We have our own software company, where we provide guidance for real time projects.

The company also signed MOUs with more than 50 colleges for training and placement related activities.

We will be glad if all computer branch students from your college be present and take advantage of seminar for their bright future.

All are training staffs are 10+ years experienced IT professionals working in MNC and they will also guide students through various guest lectures.

We provide 7 days free training for all students guided by IT professionals.

We provide direct placement opportunities to your students after completion of their graduations.

We need your support to carry on such initiative.

Thank you for your time.

With regards,

Archana Nigade

CEO & Founder
