

"Education for Knowledge, Science, and Culture"

- Shikshanmaharshi Dr. Bapuji Salunkhe

Shri Swami Vivekanand Shikshan Sanstha's

**Vivekanand College, Kolhapur
(Empowered Autonomous)**

Memorandum of Understanding

Between

The Climate Project Foundation, New Delhi, India.

and

Vivekanand College, Kolhapur (Empowered Autonomous).

Activity Report

This Memorandum of Understanding aims to raise the general awareness of environmental concerns such as clean energy, water conservation, waste management, planting trees, and climate change research, implications, and remedies. The project involved teachers, colleges, schools, and other relevant parties, such as the employees of Vivekanand College, Kolhapur. Five institutions were chosen to transform into Green Campuses, Climate Education and Training, viz.

1. Dattajirao Kadam Arts, Science and Commerce College, Ichalkaranji
2. Smt Akkatai Ramgonda Patil Kanya Mahavidyalaya, Ichalkaranji
3. Shikshan Maharshi Dr Bapuji Salunkhe College, Miraj
4. Padmbhushan Dr. Vasantrodada Patil Mahavidyalaya, Tasgaon
5. Raje Ramrao Mahavidyalaya, Jath

Together, VCK and TCPF executed the Green Campus Program, Teachers Training on Climate Change, and Sustainability Development Goals (SDGs) at the chosen institutes. An additional institute-specific report is included herewith.

Activity Report (Department of Physics)

Title of the Activity: Teachers' Training Program On Climate Education and Green Campus Program for Safer Planet

On August 23, 2023, a one-day teachers training program was conducted under Green Campus Program on behalf of science association and physics department. The program started with lamp lighting. On this occasion, the principal of the college, Dr. Sunil Kumar Kurane, and the head of the chemistry department, Dr. V. D. Suryawanshi and other dignitaries were present. In the introduction, it was mentioned that everyone is affected by the growing imbalance in nature, environmental problems, climate change disasters. In order to reduce the severity of crises like global warming Inno, we should take care of sustainable development from now on, this kind of guidance is given by senior environmental expert scholar Shri. Ganesh Kumar Satav guided in the first session. Change will not happen without being sensitive to the environment at this time. For this, the young generation should be kept at the center, it has been concluded from different surveys. So not only India; In all countries, innovative activities should be started with the participation of youth. Prof. Satav Sir's lecture said that a new step should be established to impart the culture of environmental education along with practical education to the students. Dr. V. D. Suryawanshi expressed his presidential aspirations. Such a training program is the first step to sensitize the students towards the environment.

Environmentalists forced environmental subjects to be made compulsory in schools and colleges. The government patted itself on the back with appreciation for this decision. Today, it has been ten years since the environmental subject was made compulsory, but the expected success has not been achieved at the school level. Even today in many schools environment is

considered as a play hour. In many places, the teachers of other subjects give the children environmental literacy. A few schools may be exceptions to this disappointment, but their number is negligible. Many students expressed their reaction in the question and answer session.

However, in five years, the picture has started to change in many colleges in Pune. From engineering, projects related to environment are increasing in the projects of students, so new activities are being implemented. In various festivals of the college, environmental issues have been given a place in the competition. Nature, pollution, wildlife conflict are being selected as project based topics.

This year they were given the topic 'Plastic Free Campus' for the Vasundhara Rescue Competition in Pune. As for the output, the new generation students are sensitive and are trying to keep the premises clean through various activities throughout the year. In our college also through NSS/NCC department many activities regarding cleanliness are implemented. Going beyond that, the real need is to implement innovative activities in the college to keep the area plastic free, prevent pollution, save electricity, save water.

No matter how much information we read about nature from books, we cannot understand nature unless we actually go to nature. The same is true of environmental conservation, not through book studies; So there is a need to save the environment through direct action. The brief of this training program was given.

One Day Workshop on Climate Reality change

One day workshop was organized by Department of Botany, Dattajirao Kadam Arts, Science and Commerce College, Ichalkaranji on 29th August 2023. The topic of the workshop was "Teachers training program on Climate Education and Green Campus for Safer planet". In this workshop Mr. Ganesh Satav was the Resource person.

Dr. Ganesh Satav gave in-depth information on the changes in the environment due to human intervention, the loss of biodiversity and the impact of ecological imbalance on human life. He also informed about the measures to be taken through our daily habits to maintain environmental balance. He expressed the opinion that this environmental balance should start from ourselves Teachers and students have done various activities to maintain the environmental balance in the college premises.

The principal Dr Anil Patil DKASC College, Ichalkaranji gave guidance and inspiration about this workshop. The vice principal Dr. D. C. Kamble and Mr. D. A. Yadav and other dignitaries were also present.

The workshop was organized by Dr. S. T. Ingle Head, Department of Botany. Anchoring did by Dr. Surekha Dhumal and Dr. Ketaki Patil. Dr Madhumati Shinde and Dr Amrapali Katti was coordinator with the help of colleagues Prof. Bharati Dopare, Prof. Arati Khot, Dr. Sandip Gavade, Dr Leena Khade, Dr Varsha Davande, Dr. Sarika Patil and Dr. Chirag Narayankar. The vote of thanks given by Dr. Madumati Shinde and Dr. Sandip Gavade.

Shrushti Green Club

Activity Report - 2023-2024

The Shrushti Green Club in Association with The Climate Reality Project India, New Delhi has organized the One day training program on 'climate education and green campus program for safer planet' on Tuesday, 22nd August, 2023.

A training program on "Climate Education and Green Campus for a Safer Planet" is crucial for several reasons i.e. Awareness and Understanding the climate. It will help to understand the urgency and severity of climate challenges. This Training programs can empower individuals with the necessary skills and knowledge to make informed decisions in their personal lives and within their communities. This includes understanding sustainable practices, energy efficiency, waste reduction, and conservation efforts. Educating individuals on mitigation strategies, such as renewable energy adoption, and adaptation measures, like resilience-building strategies, is vital to combat and cope with the impacts of climate change. This Training programs can equip participants with the tools to engage with policymakers, advocate for effective climate policies, and hold governments and corporations accountable for their environmental impact. It's essential to guide institutions on how to create environmentally friendly campuses. Additionally, it should emphasize the importance of engaging students, faculty, local communities, and policymakers to create a collective effort toward a more sustainable future. By instilling knowledge, fostering skills, and promoting action-oriented approaches, such a training program can significantly contribute to creating a more environmentally conscious society and campuses that actively work towards a safer planet.
