Student Mentoring Scheme report
(2025-26)

The Mentor–Mentee Programme was organised with the objective of providing guidance, academic support, personal counselling, and knowledge transfer to students for their overall personal and professional development. The programme provided a structured platform for students to discuss their academic, career-related, personal, and other concerns with their mentor in a supportive and confidential environment.

As part of the programme, 22 students of the B.Com. programme were mentored by Dr. Umesh Dhondiram Dabade. Regular interactions with the mentees focused on identifying their difficulties, understanding their individual needs, and providing appropriate guidance and support.

During the mentoring sessions, various issues faced by the students were discussed. These included difficulties related to academic activities, domestic and personal issues, selection of appropriate courses, career planning, and preparation for competitive and professional examinations such as CA, CS, MPSC, and Banking examinations. Students were also guided regarding higher education opportunities, skill-development courses, career options in different sectors, and the effective utilisation of college facilities and academic resources.

Overall, the Mentor–Mentee Programme proved to be a valuable initiative for fostering a positive relationship between teachers and students and supporting the holistic development, academic progress, and career preparedness of the mentees.

Dr. U. D. Dabade
