

Shri Swami Vivekanand Shikshan Sanstha

**VIVEKANAND COLLEGE, KOLHAPUR**  
**(EMPOWERED AUTONOMOUS)**  
**Department of Computer Science**

organized

**“Environment-friendly Ganesha Making Workshop”**

**Introduction:**

The Ganesha Festival in Maharashtra is celebrated on a grand scale with elaborate Ganesha statues adorning households and public spaces. However, the use of non-environmentally friendly materials in making these statues poses a significant threat to the environment. In response to this, the Department of Computer Science at Vivekanand College, Kolhapur (Autonomous) has been organizing an annual "**Environment-friendly Ganesha Making Workshop**" to raise awareness and promote eco-friendly practices.

**Objectives:**

- ✓ **Promote Environmental Awareness:** The primary objective of this best practice is to raise awareness among students and teachers about the environmental impact of traditional Ganesha statues made from non-biodegradable materials.
- ✓ **Encourage Environment-friendly Practices:** The workshop aims to motivate participants to make their own Ganesha statues using eco-friendly materials, particularly clay, to reduce the ecological footprint associated with the festival.
- ✓ **Skill Enhancement:** By inviting an expert, Mr. Aman Salim Shaikh, a terracotta and pottery artist, participants gain valuable skills in eco-friendly Ganesha statue making, allowing them to create their own environmentally conscious idols.
- ✓ **Community Impact:** The practice seeks to influence not only the college community but also the broader society by promoting sustainable and responsible festival celebrations.

## **Motivation:**

- ✓ **Environmental Concerns:** The motivation behind this initiative stems from growing environmental concerns related to festivals, including the negative impact of non-biodegradable materials used in making Ganesha statues.
- ✓ **Educational Institution Leadership:** Vivekanand College takes a leadership role in promoting responsible environmental practices by organizing such workshops, aligning with its commitment to holistic education.
- ✓ **Expert Guidance:** The invitation of Mr. Aman Salim Shaikh, an expert in eco-friendly Ganesha making, demonstrates the college's dedication to providing quality training and motivation to its students and faculty.

## **Implementation Process:**

- ✓ **Annual Workshops:** The college organizes the workshops every year before the Ganesha Festival, allowing participants to learn and practice eco-friendly Ganesha making techniques.
- ✓ **Expert Trainer:** Mr. Aman Salim Shaikh, with expertise in terracotta and pottery, conducts the workshops. He imparts knowledge and skills in creating Ganesha idols from environmentally friendly clay.
- ✓ **Hands-on Experience:** Students and teachers actively participate in the workshops, gaining practical experience in crafting their own eco-friendly Ganesha statues.

## **Benefits and Impact:**

- ✓ **Environmental Consciousness:** The workshops promote eco-friendly practices and highlight the importance of sustainable celebrations, reducing the environmental impact of festivals.
- ✓ **Skill Development:** Participants acquire valuable skills in terracotta art and pottery, enhancing their creative abilities and fostering appreciation for traditional crafts.
- ✓ **Community Outreach:** The college's efforts extend beyond its campus, as students and teachers become advocates for eco-friendly Ganesha making in the broader community.
- ✓ **Fostering Cultural and Environmental Harmony:** The initiative showcases how traditional festivals and environmental responsibility can coexist, offering a sustainable approach to celebrating cultural events.

The "Environment-friendly Ganesha Making Workshop" organized by Vivekanand College serves as a model best practice that not only educates but also motivates individuals to embrace environmentally friendly practices during festivals, contributing to a healthier and more sustainable future.

Criteria V- Activities Report

1. **Name of Department:** - Computer Science
2. **Name of Organized Activity:** - "One Day Workshop on Environment Friendly Ganesha Making"
3. **Date/ Duration:** -14 September 2023
4. **Aims and Objectives:** -
  - To aware the students about pollutions, its types and its hazardous problems for society.
  - To aware the students about importance of environment friendly festival celebrations, especially "Ganesh Chaturthi".
  - To aware the students about how to make Ganesh Murties from clay.
5. **No. of beneficiaries:** - 63
6. **Expenditure & funding agency:** -1000, VCK
7. **Brief description:** - Resource Persons: - Mr. Aman Shaikh, Renowned Clay Artist.

Mr. Aman Shaikh stated the mission undertaken by him for pollution free environment. He conveyed message that how one can participate to mitigate the pollution by their dos. He enthusiastically given hands on training for making Ganesh murtities using clay. In whole day, Mr. Aman created number of murties to make students creative and given ideas to create good and attractive Ganesh Murties.

8. **Outcomes:** - All present students got awareness about the pollution which knowingly and unknowingly happened by the society. They experienced the Ganesha Murty making using clay. They created beautiful murties which were appreciated by the Mr. Aman Shaikh.

9. **Photos:** -

Thursday 14th September 2023 at 11:00AM onwards

### Environmental Problem

Everybody loves celebrate Ganesh festival with great zeal. But the most serious impact of the Ganesh festival on environment is due to the immersion of idols. The immersion of idols made out of chemical materials causes significant water pollution. The use of thermocol and plastic in pandals as well as for garlands and other decorations increases non biodegradable waste. The toxic waste from these materials kills plant and animal life in the water bodies. Celebrating eco-friendly Ganesh festival enables you to celebrate festival grandly without harming environment and other living beings.

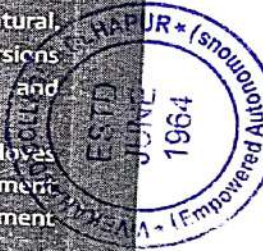

## ENVIRONMENT FRIENDLY GANESHA MAKING WORKSHOP

### Towards sustainable development...

As going green is the new mantra, say no to idols made of chemical, Plaster of paris, clay, plastic, thermocol (polystyrene). Opt for natural biodegradable material so that after immersions (visarjan) it does not pollute water and surroundings.

The workshop is for all individuals who loves Ganesh Festival and love to sustain environment and ready to start spreading the environment harming awareness among society and people. We will bring the opportunity to all students and staff to become a part of this environment sustainability fest.

**Subject:** Regarding permission to organize "Environment Friendly Ganesha making Workshop"...

Respected Sir,

As per the subject cited above, we are going to organize **Environment Friendly Ganesha making Workshop** on Monday 09<sup>th</sup> August 2021 at 12:00 Noon for students and staff. This activity should be needed for environmental consciousness and sustainable development awareness among society.

For the above said workshop we have invited **Mr. Aman Salim Shaikh (terracotta and pottery artist and eco-friendly Ganesha hand building expert)** to demonstrate the making of Ganesha.

So I request you to please give us the permission to organize the same and also sanction us **Rs. 1000/- (One thousand only)** as a remuneration to the invitee.

Thanking you.

Sincerely Yqur's

(Dr. V. B. Waghmare)

**Environmental Problem**

Everybody loves celebrate Ganesh festival with great zeal. But the most serious impact of the Ganesh festival on environment is due to the immersion of idols. The immersion of idols made out of chemical materials causes significant water pollution. The use of thermocol and plastic in pandals as well as for garlands and other decorations increases non biodegradable waste. The toxic waste from these materials kills plant and animal life in the water bodies. Celebrating eco-friendly Ganesh festival enables you to celebrate festival grandly without harming environment and other living beings.

**Environment Friendly  
 Ganesh making Workshop**

**Towards sustainable  
 development...**

As going green is the new mantra, say no to idols made of chemical, Plaster of paris, clay, plastic, thermocol (polystyrene). Opt for natural, biodegradable material so that after Immersions (visarjan) it does not pollute water and surroundings.

The workshop is for all individuals who loves Ganesh Festival and love to sustain environment and ready to start spreading the environment harming awareness among society and people. We will bring the
