# Brief Summary

## Report on Community Engagement Activity

**Date:** 13th September 2025

**Topic:** Visit of MBA students to Sawali Health care centre .

The Department of Management Studies, MBA Program, Vivekanand College, Kolhapur, organized a meaningful social work event in collaboration with Sawali Care Center, where MBA students actively participated as volunteers to contribute towards community service and social responsibility. The initiative was designed with clear objectives – to foster social responsibility among students by engaging them in activities that directly contribute to the welfare of society, to provide experiential learning opportunities that enable them to apply managerial, communication, and teamwork skills in a practical social setting, and to develop empathy and awareness about the challenges faced by underprivileged sections of society, thus encouraging them to go beyond academics and professional careers in their contributions to humanity. During the event, the MBA students were involved in a variety of activities at Sawali Care Center, ranging from assisting in day-to-day operations, engaging with residents and beneficiaries, organizing recreational and motivational sessions, and creating an atmosphere of care, support, and encouragement for the people at the center.

They not only extended help in routine responsibilities but also added value through their managerial skills by coordinating tasks, working as a team, and ensuring that the planned activities were effectively executed. Through these efforts, the students created a positive impact on the residents of the Care Center, while simultaneously gaining valuable life lessons that go far beyond classroom learning. The outcomes of this event were significant and aligned well with the initial objectives. Students reported an enhanced sense of social awareness and empathy, having gained first-hand exposure to the issues and struggles faced by the underprivileged, thereby realizing the importance of compassion and social responsibility in life. Furthermore, their participation in group activities and collaborative tasks allowed them to improve their teamwork and leadership skills, as they had to coordinate, manage, and solve problems collectively under real-world conditions. This, in turn, contributed to their overall holistic development as aspiring managers, as they learned to balance professional competence with humanitarian values. The experience instilled in them a sense of pride and responsibility, reinforcing the idea that management education is not only about academic and corporate success but also about shaping responsible citizens who are sensitive to social needs. The event also helped bridge the gap between theoretical knowledge and practical application, as students applied their communication, coordination, and organizational abilities in a socially beneficial setting, thus enriching their personal and professional growth. Overall, the social work event at Sawali Care Center was a highly enriching and transformative experience for the MBA students. It provided them with an opportunity to engage in meaningful volunteerism, nurtured their values of empathy, responsibility, and service, and prepared them to become not just successful professionals but also socially conscious individuals who can contribute positively to society. Such initiatives are essential in modern management education, as they cultivate a sense of balance between career aspirations and social commitment, thereby ensuring that future leaders are not only competent in business but also compassionate towards the community.
