Social Outreach Activity

The Department of Management Studies organized a Social Outreach Activity for MBA students on 26th April 2025 with the objective of sensitizing future managers towards their social responsibilities and the importance of community engagement. The initiative was designed to encourage students to step beyond academics and contribute meaningfully to society. As part of the activity, students visited local communities and engaged in various outreach programs such as awareness campaigns, cleanliness drives, and interactive sessions with underprivileged groups. Some students volunteered in schools, conducting motivational talks and career guidance for children, while others contributed by distributing essential items and spreading awareness about health, hygiene, and environmental sustainability.

The activity not only created a positive impact on the community but also provided students with an opportunity to develop empathy, teamwork, and leadership skills in real-life scenarios. It reinforced the values of social responsibility and ethical conduct, which are integral for their holistic development as future leaders. The event concluded with a reflection session, where students shared their experiences and learnings. Overall, the Social Outreach Activity was a meaningful initiative that successfully combined learning with service, leaving both the students and the community enriched.
