Guest Lecture on “Advance Excel for Business Analytics”

Topic: “Advance Excel for Business Analytics”

Speaker: Dr. Varad Bhanage

Date: 16th November 2024

A three-day workshop on Business Analytics using Advanced Excel was conducted on 16th November 2024 for MBA students under the guidance of Dr. Varad Bhanage, an academician and industry expert. The objective was to provide hands-on exposure to Excel tools widely used in business analytics and decision-making. The workshop began with an introduction to the importance of analytics in today's business environment. On the first day, participants learned the fundamentals of data handling, cleaning, and organizing, along with essential functions like VLOOKUP, HLOOKUP, IF statements, and conditional formatting. The second day focused on advanced techniques such as PivotTables, Pivot Charts, data visualization, and scenario analysis. Students created dashboards and practiced applying these tools to real-world problems. On the third day, Dr. Bhanage introduced predictive analytics, forecasting, Solver, and Goal Seek functions. Group activities and business case studies allowed students to apply their learning collaboratively, enhancing both technical and problem-solving skills. The workshop was highly interactive, combining theory with practical exercises. Students appreciated the sessions for bridging the gap between academic learning and industry practices. Overall, the workshop was a valuable learning experience, equipping students with essential analytical and Excel skills for their managerial careers.
