“Fermented Food Exhibition”

(2018-19)

Report

Department of Microbiology has organized the “Fermented Food Festival” on the occasion of birth anniversary of Dr. Hargovindsingh Khorana on 9th January 2019. Inauguration of Exhibition was done by Dr.D.B.Patil, HOD Department of Chemistry & senior staff secretary, Dr. Ruikar Sir, Professor S.B.Kubal sir Head & coordinator Dept of Microbiology by Saraswati pujan .

Everyone in their day to day life eat fermented food but people are unaware of the fermentation process , the process in which microorganisms play very important role to enhance the nutritional value of the food .To make the people aware regarding the role of microorganism in fermentation , Department has decided to start such activities which spread subject applicability in students .

This year around 30 students were participated in this exhibition with various fermented food like idali, dosa,dhokala , appe, pickles,cheese,paneer, various sauces & fermented drinks. Students and staff of various departments have visited the exhibition and also gave their valuable suggestions. The Exhibition was successfully organized with the help of teaching, nonteaching staff and students of Microbiology Department, Vivekanand college, Kolhapur.

2018-19

Quality Initiatives/ Activities Report

1. **Name of Department:** Department of Microbiology
2. **Name of Organized Activity:** Fermented Food Exhibition
3. **Date/ Duration:** 1 day, 09/01/2019
4. **Aims and Objectives:**
 - i. To spread awareness about role of microorganisms in fermentation.
 - ii. To provide student knowledge about process of fermentation.
 - iii. To make student aware of importance of microorganism in food fermentation.
5. **No. of beneficiaries:** Total number – 257 , Female- 187 , Male - 70
6. **Expenditure & funding agency:** Nil
7. **Brief description:**

Fermented food exhibition is organized by the department of Microbiology. Participants prepare various delicious food items which boosts their confidence. Role of micro organisms in fermenting, its role and how it works is delivered by the participants along with presenting the food items to the visitors. This activity is taken to create awareness amongst the people about the role of microbes in day to day lives of every individual.
8. **Outcomes:**
 1. Students felt motivated.
 2. Students got to know about different terms regarding pandemic diseases.
 3. Students got to know microbiologist role while encountering any microbial threat.
