Syllabus

Value Added Course

Photography

STRUCTURE OF SYLLABUS:

A. INTRODUCTION

Photography Business

Like every other business or profession, photography business is booming these days and it comes with a lot of competition in market. Therefore we'll teach our students how to pitch an idea to the client, process of bidding, cost-effective budgeting, picking locations, obtaining permits, training your models, choosing props, testing, selecting, renting, insuring equipment, invoicing and above all shooting the assignment within the planned time and budget constraints.

Career

Career opportunities include professional practice with newspapers, magazines and digital media houses; empanelment with select advertising agencies, brands, corporate, industrial houses; freelance in their area of interest such as fashion photography, advertising, portraiture, architecture, wildlife photography and documentary.

Photographers are at times, paid a certain amount of money for each picture that they shoot or paid an hourly rate or salary. Their earnings or salaries can vary depending on their experience and talent.

C. COURSE OBJECTIVES

By studying Graphic Design students will have a wider horizon in the field of art and will

- Demonstrate artistic growth by executing a variety of images/ text as images, traditional and contemporary techniques that solve complex Photography problems using creative thinking and analytical skills.
- Develop and demonstrate their understanding and skillful use of the elements and principles of Photography (*1. conceptual element, 2. visual element, 3. relational element & 4. practical or functional element.*)
- Gain skill to use the digital tools as a powerful means of communication for creation, modification & presentation.
- Study the works of contemporary artists, designers as well as the masters in the field and discuss and enrich their vocabulary of Photography.
- Learn ways to apply aesthetic sensibilities into their works and explore ways to balance between formal theories with practical applications.

2. Duration:

COC – 1Month (30hr)

SYLLABUS

Photography Technique

1. Basics types of Optics using in lances
