		Student Mentoring		
		- Report -		
		- 2024-25 -		
		Mentoring system is introduced in the college for various purposes such as to provide support, help guidance, access, availability of resources to students as well as to build relationship of trust & respect with the mentee, this helps to enhance mentee to feel free & discuss the problems. The total four students from B.Sc. II & B.Sc. III were guided. The problems of students are discussed, understood & give them guidance related to that problems. This helps the student to develop self-esteem & improve their confidence to face the situations, challenges at the time of study, travelling & any other issues.
