Academic Year 2021-2022

MENTOR MENTEE REPORT

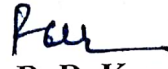

The student mentoring scheme is a crucial initiative. Through this program, the problems and difficulties faced by students can be understood, and they can be guided and counselled accordingly. During my tenure as a mentor, I guided a total of 20 students, including 5 from B.Sc. Part III and 15 from B.Sc. Part I. These students encountered various challenges, such as travel issues, difficulties in understanding scientific terms, problems with note preparation, and challenges in practical and project work. I provided guidance tailored to their specific needs and assisted them in overcoming these obstacles. This mentoring activity played a significant role in helping the students develop self-esteem and improve their confidence to face academic challenges.
