Academic Year 2022-2023

MENTOR MENTEE REPORT

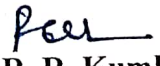

The student mentoring program stands as a pivotal initiative. Through this engagement, we delve into the complexities and challenges students encounter, offering tailored guidance and counselling. During my tenure as a mentor, I had the privilege of assisting 15 students, comprising 5 from B.Sc. Part III and 10 from B.Sc. Part I. These students faced diverse hurdles, including logistical issues, struggles with grasping scientific terminology, challenges in note preparation, and complexities in practical and project work. I provided personalized guidance, addressing their unique needs and aiding them in surmounting these hurdles. This undertaking played a crucial role in nurturing students' self-esteem and enhancing their confidence in confronting academic challenges.
