41.	**OEL03CSC22**	Introduction to Web-II	**2023-24**	Ethical considerations in web development, including issues related to user privacy, security, and responsible use of web technologies.	Promoting gender diversity in the field of web development	Integrating human values into the curriculum to ensure that web applications are developed with consideration for the well-being and needs of diverse users.	Impact of web technologies, including considerations for energy-efficient server configurations, responsible data storage practices, and promoting sustainable web development.	Explore how web technologies can contribute to goals such as quality education, reduced inequalities, and sustainable cities and communities.	Promoting creativity, critical thinking and innovation in the context of NEP-2020.
42.	**VSC03CSC21**	HTML and CSS	**2023-24**	Highlighting ethical considerations in web development using HTML and CSS, including issues related to user privacy, accessibility, and responsible use of web technologies.	Promoting gender diversity in the field of web development, addressing gender biases, and fostering an inclusive learning environment for all students pursuing HTML and CSS skills.	Integrating human values such as accessibility, usability, and user-centric design into the curriculum to ensure that web applications developed using HTML and CSS are aligned with the well-being and needs of diverse users.	The environmental impact of web technologies, including considerations for energy-efficient design, sustainable hosting practices, and promoting eco-friendly web development using HTML and CSS.	To explore how web technologies can contribute to goals such as quality education, reduced inequalities, and sustainable cities and communities.	Promoting creativity, critical thinking and innovation in the context of NEP-2020.

(AUTONOMOUS)

Curriculum relevance: Course contents with cross cutting issues (PG) 2022-23 to 2023-24

Sr. No.	Course Code	Course / SECs Titles	Year of Introduction	Professional Ethics	Gender	Human Values	Environment and Sustainability	Sustainable Development goals	NEP-2020
1.	CC-2500 A	**Design and Analysis of Algorithms**	**2022-23**	Highlighting ethical considerations in algorithm design, focusing on fairness, transparency, and responsible algorithmic use.	Promoting gender diversity in algorithmic research and development,	Integrating human values such as transparency, accountability, and ethical decision-making into algorithmic design practices to ensure that algorithms align with societal values and needs.	Discussing the environmental impact of algorithms, including considerations for computational resources and energy consumption, and promoting sustainable algorithmic practices.	Exploring how algorithm design aligns with Sustainable Development Goals in Indian education, contributing to objectives like quality education, reduced inequalities, and responsible consumption and production.	Following to the principles and recommendations outlined in the National Education Policy-2020, which encourage a multidisciplinary and holistic education. This includes fostering creativity, critical thinking, and innovation in the context of algorithm design and analysis.
2.	CC-2501 A	**Python Programming**	**2022-23**	Highlighting the importance of ethical coding practices in Python programming, including issues related to data privacy, security, and responsible development of software applications.	Promoting an inclusive learning and research environment for all students.	Integrating human values such as collaboration, empathy, and social responsibility into the curriculum to ensure that Python programming is approached with consideration for the well-being and needs of users.	Discussing the environmental impact of software applications developed using Python, including considerations for server energy consumption and promoting sustainable coding practices.	Python programming can contribute to goals such as good health, quality education, and reduced inequalities through the development of impactful software solutions.	This includes fostering creativity, critical thinking, and innovation in the context of Python programming in NEP-2020.

VIVEKANAND COLLEGE ESTD. JUNE 1964 KOLHAPUR

3.	CC-2502 A	**Database Management System**	**2022-23**	Ethical considerations in handling of sensitive information.	Promoting gender diversity in database management	Integrating human values such as integrity, transparency, and user-centric design into the curriculum to ensure that database management systems are developed with consideration for the well-being and needs of users.	Discussing the environmental impact of database management systems, including considerations for energy consumption, data storage, and promoting sustainable data management practices.	Database technologies can contribute to goals such as quality education, reduced inequalities, and responsible consumption and production in Sustainable development.	Included creativity, critical thinking, and innovation in the context of database management in NEP-2020.
4.	CC-2503 A	**Cyber Security**	**2022-23**	The issues related to responsible disclosure, respecting user privacy and following to ethical hacking practices.	Promoting gender diversity in cybersecurity	Integrating human values such as integrity, accountability, and empathy into the curriculum to ensure that cybersecurity professionals approach their work with a focus on protecting individuals and society.	Discussing the environmental impact of cybersecurity practices, including considerations for energy consumption in maintaining secure systems and promoting sustainable cybersecurity solutions.	Aligning the study of cyber security with the IT Act to explore how cybersecurity measures can contribute to goals such as peace, justice and strong institutions, as well as partnerships for the goals.	This includes fostering creativity, critical thinking, and innovation in the context of cybersecurity education in NEP-2020.
5.	CC-2506	**Web Technology**	**2022-23**	Ethical considerations in web development and technology enhancement.	Promoting gender diversity in web design and development technology	Integrating human values such as accessibility, inclusivity, and user-centric design into the curriculum to ensure that web technologies are developed with consideration for the well-being and needs of diverse users.	Discussing the environmental impact of web technologies	To explore how web technologies can contribute to goals such as quality education, reduced inequalities, and responsible consumption and production for the societal benefits.	This includes fostering creativity, critical thinking, and innovation in the context of web technology in NEP-2020.
6.	CC-2507	**Advanced Java**	**2022-23**	the importance of ethical coding practices in advanced Java programming, including issues related to intellectual	Promoting gender diversity in advanced Java programming by providing an inclusive learning	Integrating human values such as collaboration, empathy, and social responsibility into the curriculum to ensure that Java programming is approached with consideration for the	The environmental impact of software applications developed using Java, including considerations for server energy consumption	To explore how Java programming can contribute to goals such as good health, quality education etc.	This includes fostering creativity, critical thinking, and innovation in the context of advanced Java programming

VIVEKANAND COLLEGE ESTD. JUNE 1964 KOLHAPUR

				property, responsible software development	environment for all students.	well-being and needs of users.			
7.	CC-2508	**Android Development with Kotlin**	**2022-23**	Responsible app development practices, and to follow the guidelines in the mobile app industry.	Promoting gender diversity in Android application development,	Android apps developed with Kotlin are user-friendly, ethically designed and cater to diverse user needs.	The Environmental impact of mobile app development, including considerations for energy-efficient coding practices and sustainable design choices in Android applications.	To explore how mobile apps can contribute to goals such as quality education, reduced inequalities, and sustainable cities and communities.	This includes fostering creativity, critical thinking, and innovation in the context of Android development with Kotlin in NEP-2020.
8.	CC-2509	**Software Project Management**	**2023-24**	The ethical considerations in software project management, including issues related to fair project management practices, intellectual property rights, and ethical decision-making in project development.	Promoting inclusive work environment for all team members.	Integrating human values such as teamwork, empathy, and transparency into the curriculum to ensure that software projects are managed with consideration for the well-being and collaboration of team members.	The environmental impact of software development projects, including considerations for energy-efficient coding practices, sustainable project management methodologies, and eco-friendly software development.	To explore how project management practices can contribute to goals such as quality education, reduced inequalities, and sustainable cities and communities.	This includes fostering creativity, critical thinking, and innovation in the context of software project management in NEP-2020.
9.	CC-2512	**Artificial Intelligence**	**2023-24**	The ethical considerations in AI research and development, including issues related to bias in algorithms, responsible use of AI, and ethical decision-making in AI applications.	Promoting gender diversity in AI	Integrating human values such as transparency, accountability, and fairness into the curriculum to ensure that AI technologies are developed with consideration for the well-being and values of individuals and society.	Discussing the environmental impact of AI technologies, including considerations for the energy consumption of AI models and the carbon footprint associated with training large-scale models.	To explore how AI models can contribute to goals such as good health, quality education, and reduced inequalities.	This includes fostering creativity, critical thinking, and innovation in the context of artificial intelligence.

VIVEKANAND COLLEGE ESTD. JUNE 1964 KOLHAPUR

10.	CC-2513	**Advanced Web Technology**	**2023-24**	Ethical considerations in advanced web technology	Promoting gender diversity in advanced web technology	Integrating human values such as accessibility, inclusivity, and user-centric design into the curriculum to ensure that advanced web technologies are developed with consideration for the well-being and needs of diverse users.	Discussing the environmental impact of web technologies, including considerations for server energy consumption, data storage, and promoting sustainable web development practices.	To explore how advanced web technologies can contribute to goals such as quality education, reduced inequalities, and responsible consumption and production.	This includes fostering creativity, critical thinking, and innovation in the context of advanced web technology in NEP-2020.
11.	CC-2514	**PHP**	**2023-24**	Ethical considerations in PHP programming	Promoting gender diversity in PHP programming	Integrating human values like accessibility, inclusivity and user-centric design into the curriculum to ensure that PHP applications are developed.	The environmental impact of web applications developed using PHP	To explore how PHP programming can contribute to quality education through the development of web applications.	This includes fostering creativity, critical thinking, and innovation in the context of PHP programming in NEP-2020.
12.	CC-2515	**Network Security Analyst**	**2023-24**	Promoting The importance of professional ethics in network security analysis	Promoting gender diversity in the field of network security	Integrating human values such as trustworthiness, transparency, and ethical decision-making into the curriculum to ensure that network security analysts approach their work with consideration for the well-being and trust of users.	The environmental impact of network security measures, including considerations for energy-efficient security protocols and promoting sustainable cybersecurity practices.	to explore how Network Security measures can contribute to goals such as peace, justice, and strong institutions, as well as partnerships for the goals.	This includes fostering creativity, critical thinking, and innovation in the context of network security analysis.

Content with Cross Cutting Issues P. G. 2022-23 to 2023-24

Sr. No.	Name of the Course	Course Code	Year of Introduction	Professional Ethics	Gender	Human Values	Environment and Sustainability	Sustainable Development Goals	NEP 2020
M. Sc. I Statistics (Newly Introduced in 2022-23)									
1	Real Analysis	CC-2300A	2022-23					1. Set of real numbers 2. Sequence of real numbers Real valued function	
2	Linear Algebra	CC-2301A	2022-23	1.Vector space 2.Subspace				Characteristic roots and vectors of a matrix	
3	Distribution Theory	CC-2302A	2022-23	1.Transformations of univariate random variables			1.Mixtures of probability distributions 2.Decomposition of mixture CDF into discrete and continuous CDF		
4	Estimation Theory	CC-2303A	2022-23	1.Problem of point estimation					

VIVEKANAND COLLEGE ESTD JUNE 1964

				2.Bayes estimation					
5	Statistical Computing	CC-2304A	2022-23	Resampling techniques					
6	Probability Theory	CC-2306B	2022-23			1. Classes of sets 2. Weak and Strong laws of large numbers			
7	Theory of Testing of Hypotheses	CC-2307B	2022-23	1. Problem of testing of Hypothesis 2. Problem of confidence intervals					
8	Linear Models and Regression analysis	CC-2308B	2022-23	1. General linear model 2. Multiple regression model					
9	Design and analysis of Experiment	CC-2309B	2022-23	1. Experimental designs 2. Applications of DOE					
10	Sampling Theory & Official Statistics	CC-2310B	2022-23	1.Random samplings 2.Double sampling					
M. Sc. II Statistics (Newly Introduced in 2023-24)									
11	Asymptotic Inference	CC-2312A	2023-24	Consistency of an estimator					

ESTD

12	Multivariate Analysis	CC-2313A	2023-24	Exploratory multivariate data analysis				1. Discrimination and classification 2. Canonical correlation analysis 3. Principal component analysis Factor analysis	
13	Stochastic Processes	CC-2314A	2023-24	1. Poisson process 2. Birth and death processes 3. Queuing models		Markov chain			
14	Data Mining	CC-2315A	2023-24	1. ANN and SVM, Unsupervised learning, Data understanding and data cleaning 2. Model evaluation and selection				classification techniques	
15	Time Series Analysis	CC-2316A	2023-24				Exploratory time series analysis		

VIVEKANAND COLLEGE ESTD JUNE 1964 KOLHAPUR - 416003

16	Generalized Linear Models	CC-2318B	2023-24	1. Logistic regression 2. Poisson regression, Generalized linear models 3. Generalized linear mixed models (GLMM)				1. Logistic regression 2. Poisson regression 3. Generalized linear models 4. Generalized linear mixed models (GLMM)	
17	Survival Analysis	CC-2319B	2023-24	1. Various types of censoring 2. Summarizing competing risks data					
18	Biostatistics	CC-2320B	2023-24	Clinical trials			1. Design of clinical trials 2. Design of bio-equivalence trials, 3. Epidemiological studies		
19	Optimization Techniques	CC-2321B	2023-24					1. Linear programming problem (LPP) 2. Integer Linear Programming Problem (ILPP) 3. Dynamic Programming	

VIVEKANAND COLLEGE ESTD JUNE 1964 416003

20	Statistical Quality Control	CC-2322B	2023-24	1. Process capability Analysis 2. Shewhart Control charts 3. Acceptance sampling plans				1. Process capability Analysis 2. Shewhart Control charts 3. Quality Improvement Tools 4. Normal probability plot	
M. Sc. I Statistics (NEP 2020 Newly Introduced in 2023-24)									
21	Distribution Theory	DSC18STA11	2023-24	1. Transformations of univariate random variables 2. Multivariate normal distribution			1.Mixtures of probability distributions 2.Decomposition of mixture CDF into discrete and continuous CDFs		
22	Estimation Theory	DSC18STA12	2023-24	1. Problem of point estimation 2. Bayes estimation, 3. Consistency of an estimator					
23	Statistical Computing	DSC18STA13	2023-24	1. MSEXCEL 2. R-software				1.MSEXCEL 2.R-software	
24	Research Methodology	RMD18STA11	2023-24	1. Sampling techniques 2. Resampling methods				1.Meaning of research 2.Objectives of research 3.Motivation in research	

VIVEKANAND COLLEGE ESTD JUNE 1964 KOLHAPUR - 416003

25	Mathematical Statistics	DSE17STA11	2023-24					1. Set of real numbers 2. Sequence of real numbers 3. Real valued function	
26	Real Analysis	DSE17STA12	2023-24					1.Set of real numbers 2. Sequence of real numbers	
27	Linear Algebra	DSE17STA13	2023-24	1.Vector space 2.Subspace					
28	C Programming	DSE18STA11	2023-24	1.Algorithms 2.Flow charts					
29	Statistical Analysis Using SPSS	DSE18STA12	2023-24	Statistical analysis using SPSS				Statistical analysis using SPSS	
30	Linear model and Regression Analysis	DSC18STA21	2023-24	1. Logistic and Poisson regression 2. General linear model 3. Multiple regression model				1. Logistic and Poisson regression 2. General linear model 3. Multiple regression model	
31	Theory of Testing of Hypothesis	DSC18STA22	2023-24	1. Problem of testing of Hypothesis 2. Problem of confidence intervals					

VIVEKANAND COLLEGE ESTD JUNE 1964 KOLHAPUR - 416003

32	Multivariate Analysis	DSC18STA23	2023-24	Cluster analysis				1.Discrimination and classification, 2. Canonical correlation analysis 3. Principal component analysis 4.Factor analysis	
33	Probability Theory	DSE17STA21	2023-24					Classes of sets	
34	Reliability theory	DSE17STA22	2023-24	1. Reliability concepts and measures 2. Life time distributions					
35	DBMS	DSE18STA21	2023-24	1. Database design and ER Model 2. Transaction management		Introduction to Databases and Data Models		SQL	
36	Statistical Analysis Using Minitab	DSE18STA22	2023-24	Statistical analysis using MINITAB				Statistical analysis using MINITAB
